

## Motor Application Sheet

*Our customer relationships start with listening as we work to understand your application and learn about your unique needs. Our sales, support and engineering teams pledge to be your advocates for the quality, service and support that you deserve.*

Date

1 Application Description

2 Motor Type      Brush DC motor      Brushless DC motor      Stepper Motor  
                         Servo Motor      AC Capacitor Motor

3 This is      New development project      Replacement project

4 Estimated Annual Usage      units      Target Price

5      Drawing available      Sample/Prototype available

6 Rated Voltage

Duty Cycle:      Continuous Running      Short Duty Cycle

No load Speed      RPM      @ Current      A

Load Speed      RPM      @ Current      A

Rated Torque      N.m

Working Environment      Indoor      Outdoor

Shaft Details      Flat      Tongue      Woodruff Key      Knurl  
                         Hole      Keyway      Slot      Others

7 Gearbox      Yes      No  
         Type      Planetary gearbox      Worm gearbox      Others

8 Brake      Yes      No  
         Type      Power-on brake      Power-off brake

9 Encoder      Yes      No  
         Line count

10 Other special requirement:
